Program of Defence Procurement Management

Code: SC28 From: 30 December 2024 - 10 January 2025 City: Madrid (Spain) Fees: 7500 Pound

Introduction

The "Program of Defence Procurement Management" course is an intensive program designed to provide participants with a comprehensive understanding of the principles and practices involved in managing defence procurement programs. This course aims to equip participants with the knowledge and skills required to successfully navigate the complexities of defence procurement, ensuring efficient and effective acquisition of goods and services for defence purposes.

Objectives

- Develop a deep understanding of defence procurement management concepts, processes, and methodologies.
- Familiarize participants with the legal and regulatory frameworks governing defence procurement at the national and international levels.
- Gain expertise in analyzing and assessing procurement requirements, including technical specifications, operational needs, and budgetary considerations.
- Acquire advanced skills in supplier selection, contract negotiation, and performance management to ensure optimal value for money.
- Learn strategies for risk management, including identifying, assessing, and mitigating risks associated with defence procurement programs.
- Understand the ethical considerations, transparency requirements, and accountability mechanisms in defence procurement.
- Enhance project management skills specific to defence procurement, including planning, resource allocation, and stakeholder engagement.
- Stay updated with emerging trends, best practices, and innovations in defence procurement management.

Course Outline

Week 1

Day 1

Introduction to Defence Procurement Management

- Overview of defence procurement and its significance
- Key stakeholders and their roles in the procurement process
- Legal and regulatory frameworks in defence procurement
- Ethical considerations and transparency requirements
