Learning Agility and Developing Human Capital

Code: DG28 From: 21 - 25 July 2025 City: Kuala Lumpur (Malaysia) Fees: 4200 Pound

Introduction

Welcome to the course on Learning Agility and Developing Human Capital. In today's rapidly changing and competitive business environment, organizations must continuously invest in human capital development to stay ahead. Learning agility is a crucial skill that enables individuals and organizations to adapt, learn, and grow in the face of uncertainty and change. This course is designed to help you understand the concept of learning agility and provide practical strategies for developing human capital within your organization.

Throughout this course, we will explore the importance of human capital development in driving organizational success. You will gain insights into various approaches to nurturing human capital and enhancing learning agility. By the end of this program, you will have actionable tools to foster a culture of continuous learning and development within your organization.

Course Objectives

- Understand the Concept of Learning Agility: We will begin by defining learning agility and its significance in today's business landscape. By understanding what is human capital development and its meaning, you will be able to explore the components and characteristics of learning agility and discuss its impact on individual and organizational performance.
- Explore the Link Between Learning Agility and Human Capital Development: We will delve into the relationship between learning agility and developing human capital within organizations. Through case studies and best practices, we will highlight how learning agility can enhance employee engagement, productivity, and innovation, as well as its role in human capital development strategy.
- Develop Strategies for Fostering a Learning Culture: Building a culture of continuous learning is essential for developing human capital. Throughout this course, we will provide you with practical strategies to create a learning culture within your organization. We will discuss approaches to encourage knowledge sharing, promote collaboration, and provide opportunities for growth and development in alignment with human capital development planning.
- Implement Learning and Development Initiatives: To effectively develop human capital, organizations need to design and implement human capital development training initiatives. We will explore various approaches to identify learning needs, design effective training programs, and evaluate their impact. You will gain insights on leveraging technology, coaching, and mentoring to support employee development through agile learning and development techniques.

Course Outlines

Day 1: Introduction to Learning Agility and Human Capital Development

- Defining Learning Agility: Understand the concept of learning agility and its relevance in organizations.
- Importance of Human Capital Development: Explore how human capital development strategies are crucial
