Advanced Pelco CCTV Security System

Code: IT28 From: 16 - 20 December 2024 City: Kuala Lumpur (Malaysia) Fees: 4400 Pound

Introduction

Welcome to the Pelco CCTV Security System Advanced Training course! This intensive program is designed to provide participants with an in-depth understanding of the Pelco CCTV Security System. As one of the leading providers of surveillance solutions, Pelco offers a comprehensive range of cutting-edge technologies and products. In this course, we will explore the advanced features and functionalities of Pelco's CCTV Security System, enabling you to optimize its capabilities and enhance your surveillance operations.

Objectives

- Gain a comprehensive understanding of Pelco's CCTV Security System and its components.
- Explore advanced features and functionalities of the Pelco system, including analytics, integration, and advanced camera settings.
- Learn how to configure and optimize the system for various surveillance scenarios.
- Understand the principles of video management, recording, and storage in the Pelco system.
- Develop skills to troubleshoot and resolve common issues encountered in the operation of the Pelco CCTV Security System.
- Discover best practices for system maintenance, upgrades, and scalability.
- Explore integration options with other security systems and technologies.

Course Outline

Day 1

Introduction to Pelco CCTV Security System

- Overview of Pelco as a leading provider of surveillance solutions
- Understanding the key components of the Pelco CCTV Security System
- Introduction to the user interface and system navigation

Day 2

Advanced Camera Settings and Analytics

- Exploring advanced camera settings for enhanced video quality and performance
- Understanding advanced analytics capabilities for intelligent video surveillance
- Configuring and optimizing camera analytics for specific use cases

Day 3

Video Management and Recording

- Principles of video management in the Pelco system
- Configuring recording schedules, retention policies, and storage options
- Managing multiple camera feeds and viewing layouts

Day 4

System Integration and Advanced Features

- Integration options with access control systems, alarms, and other security technologies
- Exploring advanced features such as PTZ Pan-Tilt-Zoom control and video analytics integration
- Customizing the system for specific surveillance requirements

Day 5

Troubleshooting and System Maintenance

- Identifying and resolving common issues in the operation of the Pelco system
- Performing system maintenance tasks, including software updates and backups
- Strategies for scalability and system expansion
