Code: FA28 From: 19 - 23 May 2025 City: Vienna (Austria) Fees: 4400 Pound

Introduction

The Investment portfolio management course is a comprehensive and intensive training program designed to provide participants with the most up-to-date knowledge and advanced skills in investment management. This course aims to delve into the rapidly evolving landscape of investment strategies, portfolio management techniques, and the integration of technology in investment decision-making. Participants will gain a deep understanding of contemporary investment concepts and practices, enabling them to navigate the complexities of modern financial markets with confidence and expertise.

Objectives

- Gain a comprehensive understanding of modern investment concepts and their relationship with savings in the digital era.
- Explore advanced investment strategies and their applications in different market conditions.
- Examine the evolving role of technology in investment management and decision-making.
- Analyze the impact of macroeconomic factors on investment strategies.
- Develop proficiency in building and managing advanced investment portfolios.
- Learn cutting-edge investment analysis techniques and evaluation methods.
- Understand the principles and criteria for selecting stocks and navigating dynamic markets.
- Explore the use of alternative investments and their role in portfolio diversification.
- Evaluate the performance and risks associated with modern investment approaches.
- Apply advanced financial modeling techniques to assess investment opportunities.
- Use quantitative methods to measure and manage portfolio risk.
