Strategic Planning & Operational Crisis Management

Code: LM28 From: 5 - 9 August 2024 City: Toronto (Canada) Fees: 5700 Pound

Introduction

An organization without a strategy is like a ship without a rudder. How can organizations continue to provide exceptional value to stakeholders and customers if they are not clear on where they are heading and how they will get there? The answer is they can't. This is where the role of strategy becomes essential. The strategy is about setting ambitious goals, understanding the surrounding current and future environment, and providing a sense of direction for the organization.

This course provides participants with concrete crisis management solutions and strategies while giving insight into the delivery of effective Crisis Command, Control, Communications & Intelligence C3i implementation, and stakeholder response.

In this course, we will cover the 7 steps of the strategy management process, starting with the 'thinking' components of strategy, moving into the 'planning' components, and ending with 'execution'. At the end of the course, participants will be able to implement or improve the strategic process at their organizations to reach their vision and achieve their mission. And how to gain a greater understanding of Crisis Management, and wants to be challenged by realistic scenarios, this is an opportunity not to miss.

Course Objectives of Strategic Planning & Operational Crisis Management

- Apply strategic thinking to analyze their current environment and determine their organizational ambition
- Employ the strategic management process to best achieve the desired ambition
