## Applied Project Management for Oil & Gas

Code: OG28 From: 30 December 2024 - 3 January 2025 City: Vienna (Austria) Fees: 5100 Pound

### Introduction

This intensive five-day course will be about the application of Project Management techniques and knowledge for the effective estimating, planning, managing, and control of a project. This course will extend to the identification, assessment, and control of qualitative risks in the project-based enterprise. Uncertainty will be inherent in all projects and particularly in the aspects of technical, financial, schedule, legal, and quality the latter includes safety, health, environment, and facility integrity of performance. In addition, this course will explore quantitative risk analysis using the basics of probability.

### Course Objectives of Project Management for Oil & Gas

- Contribute to the preparation of a Project Execution Plan Project Management Plan based on an understanding of the Capital Value Process.
- Understand Decision Support Packages and their contribution to Project Management performance.
