## Document Control Specialist

Code: IT28 From: 23 - 27 December 2024 City: Malaga (Spain) Fees: 5100 Pound

### Introduction

A document management system is a computer system used to track and store electronic documents. It is usually capable of keeping track of the different versions modified by different users. The term has some overlap with the concepts of content management systems. It is often viewed as a component of enterprise content management systems and related to digital asset management, document imaging, workflow systems, and records management systems. This course shows participants how to deal with documents in an electronic way to get rid of the paper's hard copy which takes a lot of space and time.

### Course Objectives of Document Control Specialist

- Manage/control documents, including folders and forms, and reduce document distribution costs -no more paper.
- Distributing and viewing documents costs -no more paper.
- Scanning, OC, indexing, and archiving paper documents.
- Automating other office functions that involve workflows and electronic mail.
- Addressing requirements of ISO 9000 and other regulatory agencies.
- Understanding different technologies involved in EDMS.
- Managing EDMS projects and justifying ROI.
- Getting hands-on training on some EDMS products.
- Evaluating merging standards.

### Document Control Specialist Course Outlines
