## Corporate Governance Principles & Best Practices

Code: CT32 From: 15 - 19 February 2027 City: Geneva (Switzerland) Fees: 5900 Pound

### Introduction

Corporate governance is a critical topic gaining increasing attention in business schools and legislative bodies worldwide. This course is designed to explore the fundamental principles of corporate governance and the various models adopted globally. While there are several governance structures, they all aim to organize the relationship between a company and its stakeholders.

Corporate governance begins with the Shareholder Wealth Maximization SWM model, often applied in the US and UK, which focuses on the rights of the owners. However, other models, such as those in Germany and Japan, involve a broader set of stakeholders, including employees and bankers, in decision-making. Additionally, this course covers international best practices in corporate governance and discusses important topics such as board structure, committees, the audit committee, the remuneration committee, and the role of institutional investors in governance. The course also emphasizes the importance of corporate governance disclosures and transparency.

### Course Objectives

Upon completing this course, you will be able to:

- Understand the basic principles of corporate governance and their significance in business operations.
