Excellence in Patient Experience & Involvement

Code: HM28 From: 27 April - 8 May 2025 City: Tunis (Tunisia) Fees: 7400 Pound

Introduction

The [patient experience] has become a primary and leading excellence benchmark for the performance a best-in-class healthcare organization delivers on quality, safety and service. The patient experience is a journey that can take a healthcare organization to the top of the patient care league. However, if not efficient, it can also have an adverse impact on an organization's reputation and sustainability.

This course provides participants with the knowledge and skills to design and implement a patient experience-based framework to improve the overall performance of their organization. Participants will learn how to build high performing and engaged healthcare teams, establish and sustain effective clinical relationships, as well as implement strategies and tools to support patient-centered care.

Important Notice: Upon registration for a course with three or more participants in Istanbul, we include a one-day field visit to a distinguished public or private hospital.

Course Objectives

- Attract and engage customer-focused employees who are passionate about providing the best and most compassionate, yet efficient, care to the patient.
- Establish and sustain effective clinical relationships by leveraging key internal and external communication strategies.
- Build a coaching culture that supports consistent exceptional care and service.
- Identify and address the differences in patients' values, preferences and expressed needs.
- Design a patient experience framework that better meets and exceeds the patient's needs.
