International Energy Markets & Pricing

Code: OG28 From: 7 - 11 October 2024 City: Baku (Azerbaijan) Fees: 4400 Pound

Introduction

This 5-Day accelerated Blackbird training course is designed to give delegates a comprehensive picture of the global energy obtained through fossil fuels and renewal sources. The overall dynamics of global energy industry are explained with the supply-demand dynamics of fossil fuels, their price volatility, and the associated geopolitics.

The energy sources include crude oil, natural gas, LNG, refined products, and renewables - solar, wind, hydro, and nuclear energy. The focus on the issues to be considered on the sales, marketing, trading and special focus on the price risk management.

Course Objectives of International Energy Markets & Pricing

- Gain broad perspective of global oil and refined products sales business, supply, transportation, refining, marketing & trading
- Boost their understanding on the fundamentals of oil business: quality, blending & valuation of crude oil for trade, freight and netback calculations, refinery margins calculations, & vessel chartering
- Master the Total barrel economics, Oil market futures, hedging and futures, and price risk management
- Evaluate the technical, commercial, legal and trading aspects of oil business with the International, US, UK, and Singapore regulations
- Confidently discuss the technical, commercial, contractual, legal, financial regulatory concepts and buzzwords with your peers and clients

International Energy Markets & Pricing Course Outlines

Day 1
