Public Private Partnership-Negotiating & Managing PPP

Code: OC28 From: 28 April - 2 May 2025 City: Toronto (Canada) Fees: 5700 Pound

Introduction

In this Public Private Partnership-Negotiating & Managing PPP Training Course, we examine PPP from first principles to real-world examples, learning from the success and failure of PPP projects around the world. We introduce, demonstrate and test best practice recommendations for project evaluation, contractual drafting, procurement and contract management. In this Blackbird training Course, we dispel some common myths and misconceptions concerning PPP, and we address crucial practical issues such as community and stakeholder engagement, incentivizing or compelling contractual performance and dealing with requests for variation or renegotiation of contract terms.

PPP can mobilize private sector investment and expertise to provide much-needed infrastructure and public services. It can transform government departments and contracting authorities from being owners and operators of assets into knowledgeable purchasers of services from the private sector. However, with more than 110 countries competing for PPP funding and expertise, success depends on the development of public and private sector capacity and understanding of PPP.

Course Objectives of Public Private Partnership-Negotiating & Managing PPP

- Analyze and evaluate project proposals to decide whether they are suitable for PPP
- Apply best practice in procurement, promoting transparency, fairness and "bankability"
- Understand where contractual disputes are most likely to arise, and how to deal with them
- Decide how best to respond to problems, and how to rescue a PPP
- Determine how to secure and maintain political and public confidence in PPP
