# Environmental Management Systems: Monitoring and Modelling

Code: HS28 From: 6 - 10 January 2025 City: Orlando, Florida (USA) Fees: 6400 Pound

## Introduction

As concern grows for continually improving the quality of the environment, organizations of all types and sizes are increasingly turning their attention to the environmental impacts of their activities, products, and services. The environmental performance of an organization is of importance to internal and external interested parties. Achieving sound environmental performance requires an organizational commitment to a systematic approach and, to continual improvement of their environmental performance.

The purpose of this course is to provide delegates with the opportunity of gaining the skills and knowledge to develop and implement and/or improve an Environmental Management System EMS

## Course Objectives

- Understand the different types of environmental aspects and their environmental impacts.
- Understand the requirements of the environmental management standard ISO 14001:2004.
- Develop and implement an Environmental Management System EMS.
- Prepare a plan for obtaining EMS ISO 14001:2004 certification from a certifying authority.
- Identify waste streams and, opportunities for recycling waste.
