# IT Systems: Identity and Access Management

Code: IT28 From: 17 - 21 February 2025 City: Prague (Czech) Fees: 5100 Pound

## Introduction

This course is highly interactive and includes group discussions, case studies and syndicate work. It also includes practical exercises and role playing that allow all participants to use the knowledge they gained to demonstrate their skills in identity and access management.

## Course Objectives

- Illustrate the identity and access management architecture framework and discuss the security risks associated with its various deployment options.
- Discuss the different mechanisms for establishing strong authentication e.g. OTP, certificate based authentication, device authentication, etc.
- Explain the principles of key public infrastructure and certification authorities, and demonstrate their value in mitigating the security risks facing modern societies.
- Explain the most well-known access control mechanisms and the roles of oauth, OATH, SAML and OpenID standards in the IAM domain and apply the concepts of federated SSO.
- Demonstrate the building of IAM using selected industrial tools and practical case studies e.g. e-passport and boarder gate, mobile-banking, EMV scheme, and e-movement services.
