## Governance and Sustainability

Code: LM28 From: 23 March - 2025 April 2025 City: Dubai (UAE) Fees: 7000 Pound

### Introduction

The Advanced Governance and Sustainability course is designed to provide participants with a deep understanding of the principles, practices, and challenges related to governance and sustainability in the modern business landscape. This course explores advanced concepts and strategies that organizations can adopt to enhance their governance frameworks and integrate sustainable practices into their operations. Over the span, participants will gain comprehensive knowledge and skills to navigate the complexities of governance and sustainability, enabling them to drive positive change within their organizations.

### Course Objectives

- Gain a comprehensive understanding of governance principles and best practices.
- Explore the significance of sustainability and its integration into organizational strategies.
- Learn advanced techniques for developing effective governance frameworks.
- Understand the role of stakeholders and their engagement in governance and sustainability.
- Examine the link between governance, sustainability, and long-term organizational success.
- Develop the skills to identify and address emerging governance and sustainability issues.
- Gain knowledge of global trends in governance and sustainability.
- Understand the impact of technology on governance and sustainability.
- Explore sustainable finance and investment practices.
- Learn about the circular economy and resource management.

### Course Outline

#### Day 1
