Cyber Security Policy & Management

Code: IT28 From: 16 - 20 September 2024 City: Los Angeles (USA) Fees: 6200 Pound

Introduction

Welcome to the Advanced Cyber Security Policy & Management Course! In this intensive program, we will explore the most modern and cutting-edge concepts, strategies, and best practices in the field of cyber security policy and management. This course is designed to provide you with a comprehensive understanding of the challenges and opportunities in this rapidly evolving domain.

Course Objectives

- Gain a deep understanding of cyber security policy frameworks and their application in modern organizations.
- Explore advanced techniques for managing cyber security risks, threats, and vulnerabilities.
- Develop the skills to formulate and implement effective cybersecurity strategies and policies.
- Understand the legal, ethical, and regulatory aspects of cyber security policy.
- Learn how to effectively communicate and collaborate with stakeholders to promote cyber security awareness and compliance.
- Explore emerging trends and technologies in cyber security policy and management.

Course Outline

Day 1

Introduction to Cyber Security Policy & Management

- Overview of cyber security policy and its importance in modern organizations
- Understanding the threat landscape and the evolving nature of cyber attacks
- Introduction to cyber security frameworks and standards e.g., NIST, ISO 27001

Day 2

Risk Management and Assessment

- Principles of cyber security risk management
- Conducting risk assessments and vulnerability analysis
- Developing risk mitigation strategies and controls
- Incident response planning and management

Day 3

Developing Cyber Security Policies and Procedures

- Formulating cyber security policies, standards, and guidelines
- Implementing access control and authentication mechanisms
- Security awareness and training programs
- Business continuity and disaster recovery planning

Day 4

Legal and Regulatory Considerations

- Understanding legal and regulatory frameworks related to cyber security
- Privacy and data protection laws
- Intellectual property considerations
- Compliance and audit requirements

Day 5

Emerging Trends and Future Directions

- Exploring emerging technologies in cyber security e.g., AI, blockchain
- Cybersecurity Governance and Organizational Structure
- Cybersecurity leadership and strategic planning
- Ethical considerations in cyber security
