Accounting and Budgeting for the Private Sector

Code: FA28 From: 3 - 7 July 2024 City: Prague (Czech) Fees: 4400 Pound

Introduction

This advanced course on Accounting and Budgeting for the Private Sector provides participants with a comprehensive understanding of modern accounting principles and budgeting techniques applicable to private sector organizations. The course aims to enhance participants' knowledge and skills in financial management, enabling them to effectively contribute to financial decision-making processes within their organizations.

Course Objective

- Gain a deep understanding of advanced accounting concepts and practices in the private sector.
- Develop the skills to analyze and interpret financial statements for decision-making purposes.
- Acquire knowledge of modern budgeting techniques and their application in private sector organizations.
- Learn how to use financial information to evaluate the financial performance and profitability of a business.
- Understand the importance of internal controls and financial risk management in the private sector.
- Explore the latest trends and developments in accounting and budgeting practices.

Course Outline

Day 1

Introduction to Advanced Accounting Principles

- Overview of accounting principles and their application in the private sector
- Financial reporting standards and regulatory frameworks
- Accounting for revenue recognition and expenses
- Advanced financial statement analysis

Day 2

Financial Analysis and Performance Evaluation

- Ratio analysis and its importance in assessing financial performance
- Cash flow analysis and its implications for decision-making
- Evaluating profitability and return on investment
- Tools for financial forecasting and planning

Day 3

A graphic of a chessboard with several chess pieces (a king, a pawn, and a knight) on it, set against a background of concentric circles. The text 'UK Training PARTNER' is overlaid on the right side of the board.
