Introduction

Design Thinking is a human-centered approach to innovation that draws from the designer's toolkit to integrate the needs of people, the possibilities of technology, and the requirements for business success. This 5-day course will immerse you in the fundamentals of design thinking, empowering you to apply these principles to your own projects and organizational challenges.

Objectives

- Understand the core principles and methodology of design thinking.
- Learn how to empathize with users and define their needs.
- Develop skills to ideate, prototype, and test solutions effectively.
- Enhance creativity and problem-solving capabilities.
- Apply design thinking techniques to real-world challenges.
