Supplier Relationship Management (SRM)

Code: SC28 From: 24 - 28 November 2025 City: London (UK) Fees: 4400 Pound

Introduction

Supplier Relationship Management SRM is a strategic approach focused on optimizing the value derived from relationships with suppliers, aligning these partnerships with broader business objectives. In today's globalized and highly competitive business environment, understanding what is supplier relationship management and applying effective supplier relationship management techniques is crucial for gaining a competitive advantage, enhancing innovation, mitigating risks, and ensuring sustainable growth.

This advanced course is designed to equip participants with the latest tools, techniques, and strategies in supplier relationship management SRM to maximize the benefits of supplier partnerships. Whether you're aiming to refine your SRM strategies or enhance your knowledge of supplier relationship management processes, this course offers comprehensive insights into developing long-term, mutually beneficial supplier relationships.

Course Objectives

By the end of this course, participants will:

- Understand the importance of supplier relationship management in achieving strategic business goals.
- Explore advanced supplier relationship management strategies for segmenting and categorizing suppliers effectively.
- Develop collaborative and transparent relationships with suppliers, fostering trust and long-term partnerships.
- Leverage supplier relationship management technology and data analytics to optimize supplier performance.
- Discover best practices for mitigating supply chain risks and ensuring business continuity through supplier relationship management activities.
- Acquire negotiation skills for optimizing supplier agreements and contracts.
- Explore sustainable and socially responsible approaches to supplier relationship management.
- Develop a tailored SRM framework suited to your organization's needs.
