## Key Performance Indicators (KPIs ) & Optimisation

Code: LM28 From: 13 - 17 October 2025 City: Zanzibar (Tanzania) Fees: 3700 Pound

### Introduction

This hands-on training program is designed for professionals involved in the development, deployment, and management of Key Performance Indicators KPIs. Whether you are new to performance measurement or looking to refine your skills, this course will help you understand best practices for setting, measuring, and managing KPIs effectively. Through interactive workshops and practical exercises, participants will learn how to align KPIs with organizational goals and enhance performance across various sectors. The course will focus on project KPIs, KPIs for employees, and KPIs for training, ensuring you can apply these tools to your organization's performance measurement system.

Participants will also gain a deep understanding of the strategic importance of KPIs, how to create KPIs, and how to use them to drive measurable improvements in performance. By the end of the course, you'll be equipped with the knowledge to establish a solid performance measurement culture and confidently develop KPIs that matter most to your organization.

### Course Objectives

- Understand the Concept of KPIs: Learn what KPIs are, how they drive organizational success, and why they are essential for performance measurement.
- Set Strategic Goals and Develop KPIs: Gain the skills to develop KPIs aligned with your organization's strategic objectives and goals.
- Create a Performance Measurement Culture: Learn how to foster a culture that embraces performance measurement, making KPI development a key element of organizational strategy.
- Develop Alternative Performance Metrics: Understand and apply different types of metrics beyond KPIs, such as objective performance measures and Key Risk Indicators KRIs.
- Apply KPIs in Various Contexts: Learn how to tailor KPIs for different departments, such as project KPIs, KPIs for employees, training KPIs, and KPIs for operations.
- Measure and Manage Risks: Discover how to measure and manage risk using KRIs Key Risk Indicators, and ensure a comprehensive approach to performance management.
- Practical Tools and Templates: Receive hands-on tools and templates to develop and manage KPIs for your organization.
- Real-World Case Studies: Examine real-life examples to see how KPIs are implemented successfully in different organizations.
- Implement an Applied Project: Put your learning into action by developing and presenting an applied project on performance measurement and KPI development.

### Course Outlines

#### Day 1: Introduction to KPIs and KPI Development

The logo for UK Training Partner features the text 'UK Training' in a smaller font above the word 'PARTNER' in a large, bold, sans-serif font. The background of the logo is a stylized chessboard with several chess pieces (a king, a queen, and a pawn) in gold and silver, set against a backdrop of concentric circles.

- Introduction to KPIs: Explore the core concept of KPIs and their strategic importance in driving performance.
- Types of KPIs: Learn about various types of KPIs used in different areas of business, including project KPIs, KPIs for employees, and more.
- Strategic Management and Goal Setting: Understand the connection between strategic context and goal setting when developing KPIs.
- Mapping Strategic Objectives: Develop a clear understanding of how to translate organizational goals into measurable performance measures.
- Creating the Right Performance Measurement Culture: Build buy-in for a KPI-driven culture within your organization.

## Day 2: Performance Measure Development Process

- The KPI Development Process: Learn the step-by-step approach for creating effective performance measures.
- Step 1: Describe the Intended Results: Begin by defining the results you aim to achieve with your performance measurement system.
- Step 2: Understand Alternative Measures: Explore how to create alternative performance metrics using models like the Logic Model and Process Flow Analysis.

## Day 3: Advanced Performance Measure Development

- Step 2 Continued: Developing Alternative Measures: Deep dive into tools like Cause-Effect Analysis for creating alternative performance measures.
- Step 3: Selecting the Right Measurements: Learn how to choose the most appropriate KPIs for each objective.
- Step 4-6: Learn how to define composite indices, set targets and thresholds, and document selected performance measures effectively.

## Day 4: Application - Different Types of Measures

- Developing Measures for Your Organization: Apply your learning by developing KPIs for your organization.
- Measuring Strategy Execution: Create KPIs aligned with strategy execution and business operations.
- Developing KPIs for Projects and Operations: Tailor KPIs for specific areas such as project KPIs, KPIs for operations, and KPIs for employee performance.
- Measuring Risk with KRIs: Learn to develop Key Risk Indicators KRIs for managing organizational risks.

## Day 5: Advanced Topics and Delegate Presentations

- Creating KPI Alignment: Understand how to cascade KPIs throughout the organization to ensure alignment with overall objectives.
- Managing Strategically with Performance Information: Learn how to use performance measurement data to make informed, strategic decisions.
- KPI Application Project: Final project presentations where delegates apply the concepts to their own organizations, showcasing their understanding and application of performance measures.

## Why Attend This Course: Wins & Losses!

- Master KPI Development: Learn how to create KPIs that align with your organization's strategic goals,
