Master of Professional Accounting

Code: FA28 From: 21 - 25 October 2024 City: Edinburgh (UK) Fees: 4700 Pound

Accounting and finance principles, policies, and procedures are the most efficient way to implement company-wide effective internal control tools in any organization. They are part of every business cycle: purchase and payment cycle, inventory and production, HR and payroll, fixed assets and capitalization of costs, and the sales and collection cycle. On top of that, accounting and finance policies and procedures are essential for the board of directors and senior management to communicate limitations and authorities given to different managers and employees throughout the organization. Moreover, their use is also extended to organize financial reporting and compliance with regulators outside the organization.

Course Objectives of Professional Accounting

- Design and produce a model accounting manual.
- Plan the required resources needed for the department.
- Apply accounting concepts and International Financial Reporting Standards.
- Set the chart of accounts in details to suit the business model.
- Create comprehensive policies and procedures to streamline accounting for fixed assets.
- Develop policies and processes for current assets and current liabilities.
- Formulate reporting requirements as per International Financial Reporting Standards.
