Code: FA28 From: 10 - 14 February 2025 City: London (UK) Fees: 4400 Pound

Introduction

To succeed at any employment level and position, knowledge of basic financial principles is critical. 'Finance for non-Finance Professionals' transforms financial and accounting concepts into decision-making tools you can use successfully every day. You will learn to apply the fundamentals of finance to improve budget management, increase potential profits, and assess the financial performance of business activities. You will also understand the terminology used by accounting and finance staff and will feel more confident when being involved with them or using them. This course will help you do a better job and prepare you for senior management positions where financial awareness is crucial.

Course Objectives of Finance for Non-Finance

- Define the four key financial statements: balance sheet, income statement, cash flow, and changes in owner equity
- Define key financial terms such as profit, margins, and leverage used in organizations
- Interpret the financial health and condition of a company, division, or responsibility center and use financial information for management and evaluation
- Distinguish between accounting and finance and explain the finance role in running businesses
- Prepare a company's operating budget and relate it to the organization's strategic objectives
- Apply capital budgeting techniques and cost-volume-profit analysis to enhance decision making
