Advanced Finance for Non-Financial Professionals

Code: FA28 From: 10 - 27 November 2025 City: Barcelona (Spain) Fees: 11000 Pound

Introduction

This course is designed to provide non-financial professionals with a comprehensive understanding of essential and advanced financial principles and practices. Over the course of 15 days, participants will acquire the skills needed to interpret financial statements, analyze financial data, manage working capital, and make informed budgeting and investment decisions. The course will also emphasize negotiation skills, especially in the context of financial compensation and agreement settlements, making it ideal for executives and non-financial managers. Whether you are looking for finance training for non-financial managers, finance courses for executives, or business finance essentials, this course will equip you with a solid foundation in financial literacy for managers and business leaders.

Course Objectives

- Provide a foundational understanding of key financial statements and their components.
- Develop analytical skills for interpreting financial data and making informed business decisions.
- Enhance participants' ability to manage working capital and budgets effectively.
- Introduce capital budgeting techniques and their application in investment decisions.
- Build negotiation skills related to financial compensation and settlements, essential for non-financial professionals in leadership roles.

Course Outlines

Day 1: Introduction to Financial Statements

- Overview of key financial statements.
- Understanding the accounting cycle.
- Introduction to the five main accounts in financial statements.
- Income statement: purpose and significance.
- Accrual basis versus cash basis accounting.

Day 2: Income Statement Analysis

- Detailed exploration of the income statement.
- Understanding revenues, expenses, and net income.
- Performance measurement through the income statement.
- The impact of accrual versus cash accounting on the income statement.
- Practical exercises on reading and interpreting income statements.

Day 3: Balance Sheet Analysis

UK Training

PARTNER

- Introduction to the balance sheet.
- Understanding assets, liabilities, and equity.
- Assessing financial position using the balance sheet.
- Comparison between the balance sheet and income statement.
