Advanced Finance for Non-Financial Professionals

Code: FA28 From: 8 - 25 September 2025 City: Tokyo (Japan) Fees: 11700 Pound

Introduction

The "Finance for Non-Financial Managers: Mastering Business Finance Essentials" course is meticulously designed for non-financial professionals aiming to gain a solid understanding of financial principles and practices. Over an intensive 15-day period, participants will delve into advanced finance concepts, mastering financial literacy for managers to enhance their decision-making skills and confidently navigate financial discussions. From interpreting financial statements to managing working capital and negotiating financial agreements, this course equips participants with the knowledge and tools to excel in leadership roles where finance for business leaders is crucial.

Whether you're exploring finance for non-financial managers training or seeking a financial decision-making course, this program delivers a comprehensive learning experience tailored to the needs of executives and professionals across industries.

Course Objectives

By the end of this course, participants will be able to:

- Understand the fundamentals of financial statements and their components.
- Gain expertise in analyzing financial data for informed decision-making.
- Develop advanced skills in working capital management and budgeting.
- Learn capital budgeting techniques to evaluate investment decisions effectively.
- Enhance financial negotiation skills, particularly in compensation and settlement discussions.
- Build the confidence to apply financial literacy for non-financial managers in real-world scenarios.

Course Outlines

Day 1: Introduction to Financial Statements

- Overview of key financial statements.
- Understanding the accounting cycle.
- The five main accounts in financial statements.
- Purpose and significance of the income statement.
- Accrual basis vs. cash basis accounting.

Day 2: Income Statement Analysis

- Exploring the components of the income statement.
- Measuring performance through revenues, expenses, and net income.
- Practical exercises on interpreting financial statements.
