# SharePoint Development 2019 On-Premise - Modern Course

Code: IT28 From: 16 - 20 November 2025 City: Dubai (UAE) Fees: 4600 Pound

## Introduction

Our comprehensive SharePoint 2019 development course is designed to provide a well-rounded learning experience, combining detailed lectures, practical labs, interactive discussions, group activities, and progress assessments. This structured approach ensures that participants not only learn the basics of SharePoint development but also gain hands-on experience that is crucial for a sharepoint developer role. Whether you're seeking sharepoint developer training to advance your career or preparing for SharePoint developer certification, this course offers the knowledge and experience needed for success in SharePoint 2019 development.

## Course Objectives

- Understand the architecture and capabilities of SharePoint 2019 On-Premise.
- Develop and deploy modern, customized SharePoint solutions.
- Master the use of modern web technologies for site customization.
- Integrate SharePoint 2019 with other enterprise systems for enhanced functionality.
- Implement security best practices as part of the SharePoint development process.

## Course Outlines

### Day 1: Introduction to SharePoint 2019

- Overview of SharePoint 2019 On-Premise: Get familiar with SharePoint 2019 requirements and its core architecture.
- Deep dive into SharePoint architecture and components.
- Introduction to essential SharePoint development tools for building effective solutions.
- Setting up the development environment needed for building and testing your projects.

### Day 2: Modern SharePoint Framework SPFx

- Introduction to SPFx and its role in modern SharePoint development.
- Creating custom SPFx web parts and integrating them into SharePoint sites.
- Working with the SharePoint Workbench for testing SPFx components.
- Deploying SPFx solutions to your SharePoint environment.
- Hands-On Lab: Building your first SPFx web part to apply the learned concepts.

### Day 3: Customizing SharePoint Sites

- Explore modern site templates and themes to enhance user experience.
- Using the SharePoint REST API to create dynamic, data-driven sites.
- Engage in client-side development with JavaScript and TypeScript to build robust solutions.

- Integration with PowerApps and Flow for extended functionality.
- Hands-On Lab: Customizing a SharePoint site using modern tools and technologies.

#### Day 4: Advanced SharePoint Development

- Creating and managing site collections for effective content organization.
- Developing extensions and custom actions to enhance site interactivity.
- Advanced techniques for working with document libraries and lists.
- Utilizing the PnP Patterns and Practices Library for reusable code and best practices.
- Hands-On Lab: Advanced development techniques for building complex solutions.

#### Day 5: Security and Deployment

- Implementing security best practices to ensure data integrity and user safety.
- Managing permissions and access control effectively within SharePoint.
- Best practices for deploying SharePoint solutions to production environments.
- Monitoring, troubleshooting, and maintaining SharePoint 2019 for continuous performance improvement.
- Final Project: Building a comprehensive SharePoint solution that incorporates everything learned throughout the course.

#### Conclusion

This SharePoint developer course is the ideal way to start or advance your career in SharePoint development services. By completing this course, participants will not only understand what a SharePoint developer does and their roles and responsibilities but will also be prepared for real-world challenges in SharePoint 2019 development. The course also supports your journey toward SharePoint developer certification, providing you with the confidence and practical skills needed to excel in sharepoint developer openings and roles in the industry.
