Advanced Strategies in Human Resources

Ref: 3020_160373 **Date:** 22 – 26 November 2026 **Location:** Tunis (Tunisia) **Fees:** 4900 GBP

Introduction

Organizations today operate in highly dynamic environments shaped by technological advancement, changing workforce expectations, evolving business models, and increasing competitive pressures. As a result, Human Resources has evolved from an administrative function into a strategic business partner responsible for supporting organizational growth, workforce readiness, business transformation, and long-term sustainability.

Modern HR leaders are expected to align HR strategies with organizational objectives, develop future workforce capabilities, improve organizational effectiveness, support change initiatives, and help organizations respond to emerging trends such as artificial intelligence, digital transformation, and workforce automation. Strategic Human Resource Management has therefore become a critical capability for organizations seeking sustainable growth and competitive advantage.

This course provides participants with a practical framework for developing strategic HR plans, implementing workforce planning methodologies, enhancing organizational effectiveness, supporting business transformation, and strengthening employee engagement. The program also explores the growing impact of artificial intelligence on HR functions, talent management, workforce planning, organizational development, and future workforce readiness.

Through the integration of strategic planning, organizational development, workforce analytics, employee engagement, communication, and change management practices, participants will strengthen their ability to contribute directly to organizational performance and long-term business success.

Course Objectives

By the end of this course, participants will be able to:

- Develop strategic HR plans aligned with organizational objectives and business priorities.
- Apply strategic workforce planning methodologies to identify current and future workforce requirements.
- Analyze workforce capabilities and address talent gaps.
- Evaluate organizational structures and recommend improvements that enhance organizational effectiveness.
- Design HR strategies that support business growth and long-term sustainability.
- Support organizational transformation through strategic HR initiatives.
- Assess the impact of artificial intelligence and digital transformation on HR functions.
- Develop workforce readiness strategies for future business requirements.
- Apply organizational development principles to improve organizational performance.
- Develop talent management and succession planning strategies.
- Support leadership continuity and workforce sustainability.
- Apply change management principles during business transformation initiatives.
- Improve employee engagement, motivation, and workplace effectiveness.
- Strengthen communication and stakeholder engagement practices.
- Use HR analytics and workforce data to support decision-making.
- Enhance HR's contribution to organizational performance and business success.

- Strengthen employee engagement and motivation practices.
- Enhance communication and stakeholder management capabilities.
- Improve succession planning and talent management effectiveness.
- Support data-driven HR decision-making through workforce analytics.

Conclusion

Strategic Human Resource Management plays a critical role in helping organizations achieve sustainable growth, improve organizational effectiveness, and prepare for future business challenges. As organizations continue to evolve in response to technological advancements, workforce expectations, and market changes, HR professionals must adopt a more strategic and forward-looking approach to workforce planning, organizational development, talent management, and business transformation.

This course provides participants with the frameworks, methodologies, and practical approaches required to align HR strategies with organizational objectives, strengthen workforce planning, improve organizational effectiveness, support change initiatives, and respond to the growing impact of artificial intelligence and digital transformation.

Across the four training days, participants progress from strategic HR planning and business alignment to workforce planning, organizational development, talent management, future workforce readiness, digital transformation, change leadership, employee engagement, communication, and workforce analytics. This integrated structure enables participants to understand how different HR disciplines work together to support organizational performance and sustainable workforce development.

The fifth day is dedicated to a structured practical assessment that evaluates participants' ability to apply strategic HR thinking, workforce planning, change leadership, talent and analytics capabilities, and organizational effectiveness principles in realistic business situations.

By the end of the program, participants will be better equipped to develop strategically aligned HR initiatives, anticipate workforce requirements, support organizational transformation, strengthen employee engagement, apply workforce analytics, and contribute directly to sustainable organizational performance and long-term business success.
