## Sustainable Finance Management

Code: FA28 From: 3 - 14 March 2025 City: Barcelona (Spain) Fees: 7400 Pound

### Introduction

The Advanced Sustainable Finance Management course is a comprehensive program designed to equip participants with the latest knowledge and practical skills required to excel in the field of sustainable finance. This course delves into modern concepts, strategies, and tools used in sustainable finance management, allowing participants to gain a deep understanding of the key principles, frameworks, and best practices shaping the industry today. As leaders in sustainable finance, participants will emerge with the ability to integrate sustainability into financial decision-making effectively.

### Course Objectives

- Understand the fundamentals of sustainable finance: Participants will develop a solid foundation in sustainable finance, including its key concepts and the rationale behind integrating environmental, social, and governance ESG factors into financial decision-making.
- Explore advanced sustainable investment strategies: This course covers cutting-edge investment strategies, such as impact investing, green bonds, and ESG integration, enabling participants to identify and evaluate investment opportunities that align with sustainability goals.
- Learn about sustainable risk management: Participants will gain insights into assessing and managing environmental and social risks in investment portfolios, including climate change risks, reputational risks, and regulatory risks. They will also explore tools and techniques for measuring and reporting sustainability-related risks.
- Understand sustainable corporate finance: This module focuses on integrating sustainability considerations into corporate finance decisions, including capital budgeting, project finance, and mergers and acquisitions. Participants will learn how to assess the financial implications of sustainability initiatives and evaluate their impact on shareholder value.
- Gain knowledge of sustainable financial products and services: Participants will explore the latest developments in sustainable financial products and services, including green loans, sustainability-linked bonds, and sustainable insurance. They will understand the market trends and regulatory frameworks driving the growth of these products and how to engage with them effectively.

### Course Outlines

#### Day 1: Introduction to Sustainable Finance

- Overview of sustainable finance principles and concepts.
- Global trends and drivers of sustainable finance.
- Legal and regulatory frameworks for sustainable finance.

#### Day 2: Advanced Sustainable Investment Strategies

The logo for UK Training Partner features the text 'UK Training' in a small, black sans-serif font above the word 'PARTNER' in a large, bold, black sans-serif font. The text is positioned over a background of a chessboard with several chess pieces (a king, a queen, and a pawn) and a circular ripple effect.

- Impact investing and thematic investing.
- ESG integration in investment analysis and portfolio construction.
- Green bonds and sustainable fixed income products.

### Day 3: Sustainable Risk Management

- Identifying and assessing environmental and social risks.
- Climate change risk analysis and scenario planning.
- Reporting on sustainability-related risks.

### Day 4: Sustainable Corporate Finance

- Integrating sustainability into capital budgeting decisions.
- Sustainable project finance and infrastructure investment.
- Mergers and acquisitions in the context of sustainable finance.

### Day 5: Sustainable Financial Products and Services

- Green loans and sustainable banking.
