Corporate Credit Risk

Ref: 3254542_162250 **Date:** 24 – 28 May 2027 **Location:** Rome (Italy) **Fees:** 5200 GBP

Introduction

This course provides a comprehensive exploration of corporate credit risk, focusing on the assessment and management of credit risk within corporate environments. Aimed at professionals in banking, finance, and investment industries, this course covers key aspects of corporate credit analysis, creditworthiness evaluation, and effective risk mitigation strategies. Participants will gain the essential skills needed to evaluate credit risk, understand corporate credit concepts, and implement best practices for managing corporate credit risk across portfolios. Whether you're handling corporate credit cards, managing corporate loans, or working with corporate credit reports, this course offers valuable insights into risk management.

Course Objectives

Upon completion of this course, participants will:

- Understand the fundamental principles of corporate credit risk.
- Develop expertise in assessing corporate credit and evaluating creditworthiness.
- Master the analysis of financial statements and key risk indicators for credit assessment.
- Learn tools and techniques to effectively mitigate credit risk.
- Implement best practices for corporate credit risk management in a corporate environment.

Course Outlines
