Maintenance Services Estimation Cost

Code: FA28 From: 27 October - 7 November 2025 City: Bangkok (Thailand) Fees: 7900 Pound

Introduction

The Advanced Maintenance Services Cost Estimation for Facilities course offers participants a comprehensive understanding of the modern techniques and methodologies used in estimating maintenance costs for various facilities. This course aims to equip participants with advanced knowledge and practical skills to accurately estimate maintenance costs, optimize budget allocation, and ensure efficient management of facility maintenance. Through a mix of theoretical sessions, hands-on exercises, and case studies, participants will gain insights into best practices and cutting-edge trends in maintenance cost estimation.

Course Objectives

- Understand the importance of accurate maintenance services cost estimation for facilities.
- Explore advanced techniques and methodologies for estimating maintenance costs.
- Develop skills to optimize budget allocation for maintenance activities.
- Enhance decision-making regarding facility maintenance investments.
- Gain insights into industry best practices in maintenance cost estimation.
- Learn to analyze and interpret cost estimation data for effective facility management.

Course Outlines

Day 1: Introduction to Maintenance Services Cost Estimation

- Importance of accurate maintenance cost estimation.
- Overview of cost estimation methodologies.
- Key factors influencing maintenance cost estimation.

Day 2: Data Collection and Analysis for Cost Estimation

- Identifying and collecting relevant data for cost estimation.
- Analyzing historical maintenance cost data.
- Using data analysis tools and techniques.

Day 3: Cost Estimation Models and Techniques

- Introduction to maintenance cost estimation models.
- Parametric estimation techniques.
- Analytical estimation methods.

Day 4: Predictive Maintenance and Cost Estimation

UK Training

PARTNER

- The role of predictive maintenance in cost estimation.
- Predictive maintenance technologies and techniques.
- Integrating predictive maintenance data into cost estimation models.

Day 5: Budget Optimization for Maintenance Activities

- Principles of budget optimization for maintenance.
- Cost-benefit analysis for maintenance investments.
- Strategies for effective budget allocation.

Day 6: Performance Measurement and Monitoring

- Key Performance Indicators KPIs for maintenance cost management.
- Monitoring and evaluating maintenance cost performance.
- Continuous improvement in maintenance cost estimation.

Day 7: Risk Analysis and Mitigation in Cost Estimation

- Identifying and assessing risks in maintenance cost estimation.
- Strategies for risk mitigation in estimation.
- Contingency planning for unexpected maintenance costs.

Day 8: Integration with Facility Management Processes

- Aligning maintenance cost estimation with facility management practices.
- Integration with asset management and lifecycle costing.
- Collaborative approaches for cost estimation and facility management.

Day 9: Software and Tools for Maintenance Cost Estimation

- Overview of software and tools for cost estimation.
- Evaluation and selection of cost estimation software.
- Hands-on training with cost estimation tools.

Day 10: Case Studies and Best Practices

- Case studies showcasing successful maintenance cost estimation projects.
- Best practices in maintenance cost estimation.
- Future trends and emerging technologies in maintenance cost estimation.

Conclusion

Participants in this course will acquire advanced skills in maintenance cost estimation, which are critical to improving facility performance, reducing unexpected costs, and supporting strategic decision-making related to budget allocation and maintenance investments

The logo for UK Training Partner features the text 'UK Training' in a small, black sans-serif font above the word 'PARTNER' in a large, bold, black sans-serif font. The text is positioned on a white and grey checkered chessboard background. In the foreground, there are three chess pieces: a silver pawn, a silver knight, and a gold king, arranged in a line from left to right. The background also features a series of concentric, light grey circles that create a sense of depth and focus on the text.
