## Strategic Decision Making

Code: LM28 From: 27 - 31 July 2025 City: Dubai (UAE) Fees: 3900 Pound

### Introduction

The Advanced Strategic Decision-Making Course is designed to equip participants with a comprehensive understanding of the strategic decision-making process in today's complex business landscape. This program covers advanced concepts and techniques to enhance strategic decision-making skills and enable participants to make informed and effective strategic choices that align with organizational goals and objectives.

### Course Objectives

- Gain a strong foundation in the strategic decision-making process and its importance in modern business.
- Develop analytical thinking and problem-solving skills essential for making sound strategic decisions.
- Learn and apply models of strategic decision making to evaluate strategic alternatives.
- Enhance understanding of risk management and navigate uncertainty in decision making.
- Explore techniques for aligning strategic decisions with organizational goals.
- Build skills to effectively communicate and present strategic decisions to stakeholders.

### Course Outlines

#### Day 1: Foundations of Strategic Decision Making

- Introduction to strategic decision making and its role in modern business.
- Key concepts and theories in strategic decision making.
- Analyzing the external environment using PESTEL and industry analysis.
- Conducting internal environment analysis using SWOT analysis and resource analysis.

#### Day 2: Decision-Making Process and Models

- Understanding the strategic decision-making process steps.
- Exploring rational and behavioral models of strategic decision making.
- Group decision-making techniques for effective strategic planning.
- Addressing ethical considerations in strategic decision making.

#### Day 3: Advanced Decision-Making Techniques

- Applying game theory to strategic decision making.
- Using decision trees and scenario analysis.
- Understanding real options analysis for flexibility in decision making.
- Leveraging simulation and modeling, including quantitative decision-making techniques.
