# Organizational Conflict Management and Audit Quality in Industrial Companies

Code: QM32 From: 4 - 8 January 2027 City: Barcelona (Spain) Fees: 5200 Pound

## Introduction

This course aims to provide participants with a comprehensive understanding of the importance of organizational conflict management in enhancing the quality of auditing within industrial companies. When managed effectively, organizational conflict can become an opportunity to improve efficiency and foster collaboration between teams, which positively impacts the quality of auditing processes and outcomes. The course will present innovative strategies for managing conflicts, helping to minimize negative impacts and improve overall performance in the auditing field. Participants will gain practical tools and techniques to turn conflicts into opportunities for better cooperation and enhanced auditing quality.

## Course Objectives

By the end of the course, participants will be able to:

- Understand organizational conflict and its impact: Gain awareness of the concept of organizational conflict and how it affects audit quality.
- Identify and analyze the causes of conflict: Recognize the root causes that lead to organizational conflicts in industrial company environments.
- Develop effective conflict management strategies: Learn strategies and techniques to manage conflicts in a way that supports the improvement of auditing quality.
- Enhance auditing quality through collaboration: Apply effective practices to transform conflict into opportunities that foster cooperation and high-quality outcomes.
- Evaluate the effectiveness of conflict management strategies: Measure the success of various strategies in achieving a balanced work environment and high audit quality.
