## Documents and Archives

Code: SA32 From: 24 August - 4 September 2026 City: Amsterdam (Netherlands) Fees: 9400 Pound

### Introduction

In today's digital era, document management and archiving have become essential for improving efficiency, organization, and data security. This course is designed to provide participants with an in-depth understanding of modern practices in document and archive management, equipping them with the tools to handle challenges and capitalize on opportunities in this critical field.

The course covers a range of topics, including the definition of documents, archival documents meaning, best practices for archiving, and digital solutions for document management. Participants will gain the skills needed to organize, protect, and optimize document workflows effectively in today's fast-paced business environment.

### Course Objectives

By the end of this course, participants will:

- Understand the fundamentals: Learn the principles of document management and archiving, including the document lifecycle and its significance.
- Integrate technology: Explore modern technologies like digital archiving, cloud storage, and AI-powered document processing.
- Apply best practices: Familiarize themselves with international standards and strategies for effective document and archive management.
- Address legal considerations: Understand the legal and ethical implications of managing legal documents and protecting data.
- Develop practical skills: Gain hands-on experience in organizing, archiving, and preserving both physical and digital documents.
- Crisis management expertise: Learn to safeguard documents during emergencies like natural disasters or cyberattacks.

### Course Outlines

#### Day 1: Introduction to Document and Archive Management

- Overview of document management and archiving, including the definition of documents and archival documents meaning.
- Historical evolution of document management practices.
- The importance and benefits of effective document archiving solutions in business operations.

#### Day 2: Document Lifecycle and Classification

- Key elements in the creation and capture of documents.

The logo for UK Training Partner features the text 'UK Training' in a smaller, black sans-serif font above the word 'PARTNER' in a large, bold, black sans-serif font. The background of the logo is a stylized chessboard with several chess pieces (a king, a pawn, and a knight) and concentric circles radiating from behind the pieces.
