# Executive Administration of the Security and Safety Secretariat

Code: HS28 From: 8 - 12 June 2025 City: Amman (Jordan) Fees: 4000 Pound

## Introduction

In today's rapidly evolving world, the role of the Security and Safety Secretariat is pivotal in ensuring organizational resilience and operational continuity. This advanced course is designed for executive administrators and professionals responsible for leading and managing security and safety within organizations. Participants will gain comprehensive knowledge and skills in executive administration as it pertains to safety and security, learning strategic security solutions, and best practices to effectively lead security and safety initiatives. The course integrates cutting-edge strategies, frameworks, and a focus on process safety management, ensuring participants are equipped to tackle modern challenges.

## Course Objective

- Understanding Executive Roles and Responsibilities: Equip participants with a comprehensive understanding of executive roles in managing security and safety operations.
- Strategic Planning and Implementation: Develop skills in strategic planning, risk assessment, and the implementation of robust security and safety policies.
- Leadership and Decision-Making: Enhance leadership capabilities and decision-making processes in high-pressure security and safety scenarios.
- Crisis Management and Response: Provide tools and techniques for effective crisis management and emergency response planning.
- Compliance and Legal Frameworks: Familiarize participants with current legal requirements, compliance standards, and regulatory frameworks relevant to security and safety management.
- Technology and Innovation: Introduce the latest technological advancements and innovations in security and safety management systems.

## Course Outlines

### Day 1: Executive Roles and Responsibilities in Security and Safety

- Overview of the Security and Safety Secretariat and its integral role in executive administration.
- Key responsibilities of executive administrators in managing safety and security operations.
- Case studies on effective leadership in public safety administration and strategic security management.
- Workshop: Identifying and mitigating organizational risks, with a focus on executive duties and safety management.

### Day 2: Strategic Planning and Implementation

- In-depth discussion on strategic security and its importance in executive administration.
- Risk assessment methodologies and the development of process safety management plans.
- How to create and implement robust safety policies and strategic security solutions.

- Group activity: Developing a comprehensive security and safety strategy for a hypothetical organization.

### Day 3: Leadership and Decision-Making

- Examining different leadership styles and their impact on security and safety.
- Decision-making frameworks for high-pressure situations involving certified safety executive standards.
- Techniques for conflict resolution and management, tailored to the responsibilities of an executive administrator.
- Simulation: Managing a simulated security crisis scenario, applying principles from safety management courses.

### Day 4: Crisis Management and Response

- Principles and best practices of crisis management within executive administration.
- How to develop a detailed emergency response plan, including strategic security measures.
- Communication and coordination strategies during a crisis, focusing on safety management duties.
- Tabletop exercise: Role-playing to coordinate a multi-agency response to a simulated security incident.

### Day 5: Compliance, Legal Frameworks, and Technological Innovations

- Overview of compliance standards and legal requirements in executive safety administration.
- The legal implications of security and safety management decisions and obtaining relevant certifications, such as the safety management certificate.
- Exploration of emerging technologies in strategic security and safety management.
- Final project presentation: Proposing an innovative, technology-driven solution to a real-world security challenge, applying all aspects of safety management and executive administration.

### Conclusion

This course is an essential opportunity for professionals looking to advance their executive administration skills in the field of safety and security management. By completing this training, participants will not only be prepared to lead and manage security and safety initiatives effectively but also gain a certification that reflects their expertise in executive and safety management.
