Financial Accounting, Forecasting, Capital Estimation, and Risk Analysis

Code: FA28 From: 2 - 6 November 2025 City: Dubai (UAE) Fees: 3900 Pound

Introduction

In today's fast-paced financial environment, a deep understanding of financial accounting and financial forecasting is crucial for financial professionals and executives. This comprehensive training program is designed to develop participants' skills in the fundamentals of financial accounting, financial reporting, performance analysis, financial forecasting, capital estimation, and financial risk analysis.

This advanced course equips participants with a thorough understanding of what financial accounting is, practical knowledge of the principles of financial accounting, and the ability to apply financial risk analysis methods effectively. Through real-world case studies and hands-on exercises, participants will gain the tools necessary to make strategic financial decisions that support stability and long-term growth.

Course Objectives

By the end of this course, participants will:

- Gain a comprehensive understanding of the fundamentals of financial accounting and their impact on organizational strategy.
- Learn to interpret and analyze financial data and present it to senior management.
- Master financial forecasting techniques and develop advanced skills in capital estimation.
- Acquire practical expertise in financial accounting analysis and performance evaluation.
- Develop proficiency in financial accounting management and making data-driven decisions.
- Apply financial risk analysis methods to ensure stable investment decisions.
