## IP Migration and Cost-Sharing Arrangements (CSAs)

Code: FA28 From: 1 - 5 December 2025 City: Düsseldorf (Germany) Fees: 4200 Pound

### Introduction

As multinational corporations continue to expand globally, managing Intellectual Property IP migration effectively has become a critical component of business strategy. What is IP Migration? It is the strategic movement of intellectual property assets—such as patents, trademarks, copyrights, and trade secrets—between different entities within the same corporate group. This process often aims to optimize tax strategies, facilitate market expansion, and enhance corporate restructuring.

One of the essential mechanisms to manage the costs associated with IP development and migration is through Cost-Sharing Arrangements CSAs. What is cost sharing? It is a strategic approach that allows multiple entities within a corporation to share the costs and benefits of developing and utilizing intangible assets. Cost sharing meaning goes beyond simple cost distribution; it also involves legal and tax considerations that impact global business operations.

This course is designed to provide participants with in-depth knowledge of IP migration strategies, the definition of cost sharing, and how Cost-Sharing Arrangements CSAs can be effectively implemented to maximize financial and tax benefits.
