## Workforce Planning and Analytic

Code: HR28 From: 30 March - 3 April 2026 City: Madrid (Spain) Fees: 4400 Pound

### Introduction

In a rapidly evolving business environment, workforce planning and workforce analytics have become indispensable tools for aligning human capital with strategic goals. This course provides HR professionals and organizational leaders with a comprehensive understanding of how to leverage data-driven decision-making in strategic HRM.

Focusing on the UAE labor market and national goals, participants will learn how to analyze workforce data, predict future needs, and align workforce strategies with the dynamic demands of modern organizations. This training also emphasizes the integration of Emiratization and localization policies in the overall workforce planning process.

### Course Objectives

By the end of this course, participants will be able to:

- Identify and forecast current and future workforce needs using advanced workforce analytics tools.
- Use workforce data to support strategic HRM and improve business outcomes.
- Analyze internal workforce capabilities and external UAE labor market trends to inform decision-making.
- Plan for talent gaps, optimize workforce deployment, and control costs.
- Develop effective talent acquisition and succession planning strategies.
- Align workforce strategies with organizational goals and UAE's national priorities, including Emiratization.
- Communicate workforce insights clearly and effectively to senior leaders and stakeholders.
