# Advanced Governance, Risk, and Compliance (GRC): Strategic Integration and Implementation

Code: LM28 From: 3 - 14 November 2025 City: Kuala Lumpur (Malaysia) Fees: 7100 Pound

## Introduction

In today's dynamic and complex business environment, Governance, Risk, and Compliance GRC integration has evolved from foundational principles to a strategic imperative for achieving sustainability and driving long-term success. Organizations must not only manage risk effectively but also establish robust governance structures and comprehensive compliance frameworks that ensure resilience, transparency, and alignment with global best practices.

This advanced-level course is designed for senior professionals and decision-makers who are eager to master GRC integration and its role in supporting enterprise risk management and regulatory compliance. Participants will learn how to implement modern risk governance frameworks, deploy digital compliance tools, and leverage international standards such as COSO and ISO. This program empowers leaders to build a risk-aware culture, drive data-driven decision-making, and create sustainable, competitive organizations across various sectors.

## Course Objectives

By the end of this course, participants will be able to:

- Integrate governance, risk, and compliance systems GRC Systems into cohesive, enterprise-wide frameworks.
- Apply governance models that balance corporate governance and public sector governance.
- Identify and mitigate advanced risks—including geopolitical, technological, and environmental risks—through modern risk assessment and risk management techniques.
- Design internal controls and compliance management systems aligned with COSO and ISO standards.
- Employ digital compliance tools and AI-driven analytics to support monitoring, control, and reporting.
- Build a risk-aware culture Risk Culture to promote proactive governance and risk behaviors.
- Strengthen stakeholder engagement strategies and meet legal and ethical obligations across jurisdictions.
- Benchmark organizational practices against global best practices for GRC integration and continuous improvement.

## Course Outlines

### Day 1: Strategic GRC Frameworks and Global Trends

- Evolution of governance models and modern regulatory compliance.
- Aligning governance with strategic value creation.
- Overview of governance structures board, audit, compliance roles.
- Project governance and accountability in the public sector.

### Day 2: Stakeholder Engagement and Institutional Governance

- Mapping complex stakeholder ecosystems.
