Istanbul (Turkey)

4 - 15 April 2027

NEBOSH IGC NEBOSH International General Certificate in Occupational Health and Safety

Code: HS32 From: 4 - 15 April 2027 City: Istanbul (Turkey) Fees: 8800 Pound

Introduction

The NEBOSH International General Certificate in Occupational Health and Safety IGC is designed for those who aspire to ensure safe and healthy work environments across industries worldwide. As one of the most widely recognized health and safety certifications, this comprehensive 10-day course provides essential knowledge and practical experience in managing workplace hazards and promoting a culture of safety. The program covers key topics including risk assessment, hazard control, and legal compliance, helping participants confidently navigate their roles in health and safety management.

By the end of this intensive training, you will have a solid understanding of occupational health and safety best practices and be fully prepared to successfully pass the NEBOSH IGC exam, a crucial step in advancing your health and safety career.

Course Objectives

By the end of this NEBOSH IGC training, participants will be able to:

- Understand key principles and practices of workplace health and safety management.
- Identify and manage common workplace hazards effectively.
- Conduct comprehensive risk assessments and develop appropriate control measures.
- Apply health and safety legislation and international best practices in real-world scenarios.
- Promote a proactive safety culture within their organizations.
- Confidently prepare for and pass the NEBOSH IGC certification exam.
