Oversight and Ethics in Artificial Intelligence Deployment

Code: AI28 From: 3 - 7 May 2026 City: Istanbul (Turkey) Fees: 4600 Pound

Introduction

As artificial intelligence AI becomes an integral part of organizational operations across industries, the need for robust oversight and ethical frameworks is no longer optional—it's essential. AI is not just a technical advancement; it's a governance issue, a legal concern, and a cultural challenge.

For leaders and professionals in the Middle East and North Africa MENA region—especially those in sectors such as oil and gas, banking, telecommunications, government, HR, project management, and marketing—understanding how to deploy AI ethically and responsibly is a mission-critical competency.

This comprehensive training course equips participants with the strategic insights and practical tools needed to evaluate, manage, and guide AI initiatives through a lens of ethics, compliance, and institutional accountability. Whether you're driving digital transformation or navigating emerging risks, this course is tailored to empower your decision-making.
