ITIL Foundation (Information Technology Infrastructure Library)

Code: IT32 From: 20 - 24 July 2026 City: Singapore (Singapore) Fees: 6600 Pound

Introduction

In the rapidly evolving world of Information Technology, organizations strive for structured and efficient IT Service Management to achieve business objectives and enhance customer satisfaction. The ITIL Foundation Information Technology Infrastructure Library is the globally recognized framework for IT Service Management ITSM. This ITIL Foundation Course is designed to introduce participants to ITIL best practices, enabling them to optimize IT services, align IT capabilities with business needs, and deliver value through effective service management. Through practical examples and interactive sessions, participants will gain a solid understanding of ITIL principles, ITIL processes, and the ITIL service lifecycle stages.

Course Objectives

By the end of this ITIL training foundation, participants will be able to:

- Understand the key concepts and ITIL principles of IT Service Management ITSM as outlined in the ITIL framework.
- Explore the ITIL Service Lifecycle and its five stages: Service Strategy, Service Design, Service Transition, Service Operation, and Continual Service Improvement.
- Identify the main ITIL processes and functions and understand their impact on service delivery.
- Enhance IT service quality, efficiency, and business alignment using ITIL best practices.
- Prepare effectively for the ITIL Foundation Certification Exam through practical exercises and mock tests.

Course Outlines

Day 1: Introduction to ITIL and IT Service Management ITSM

- Overview of ITIL and its significance in IT Service Management.
- Key concepts: Service, Service Management, Value Creation, and Stakeholders.

- Understanding the Four Dimensions of Service Management:
