Crisis and Emergency Response Management

Code: LM28 From: 10 - 14 November 2025 City: Maldives (Maldives) Fees: 4700 Pound

Introduction

In today's world, where natural disasters, industrial accidents, cyberattacks, and political unrest can strike without warning, Crisis and Emergency Response Management has become a strategic necessity, not a luxury.

This course is tailored for executives, department heads, and specialists across public and private institutions in the Middle East and North Africa MENA region. It serves professionals from sectors such as energy, finance, telecommunications, government, human resources, and project management those who seek to strengthen organizational resilience and leadership in times of disruption.

The program offers a practical, structured approach to anticipating threats, coordinating emergency responses, ensuring business continuity, and restoring operations quickly and efficiently.

Course Objectives

- Understand the core concepts of crisis and emergency management
- Identify the lifecycle of a crisis: preparedness, response, and recovery
- Build practical and actionable emergency response plans
- Implement incident command systems within organizations
- Develop clear and effective communication protocols during crises
- Analyze real-world case studies from local and global institutions
- Prioritize emergency actions based on impact and risk levels
- Design strategies for business continuity and post-crisis recovery
