## Effective Internal Audit Leadership

Code: QM28 From: 13 - 17 October 2025 City: Kigali (Rwanda) Fees: 3300 Pound

### Introduction

Internal audit is one of the vital strategic tools for enhancing control and governance within institutions. Leading internal audit requires an advanced level of skills in strategic planning, risk management, and deep operational analysis, in addition to the ability to efficiently guide teams and make a tangible impact on institutional performance. This course aims to empower leaders and supervisors in the field of internal audit to develop their leadership and technical skills and apply global best practices in a complex and ever-changing environment. Participants will become familiar with the latest advanced tools and techniques used in audit processes, how to deal with organizational challenges, in addition to hands-on training in managing audit teams, data analysis, and preparing strategically impactful reports.

### Course Objectives

By the end of this course, participants will be able to:

- Lead internal audit teams in complex and dynamic environments with high efficiency.
- Design and implement strategic audit plans based on advanced risk analysis.
- Utilize modern technological tools and techniques for data analysis and evidence collection.
- Draft advanced audit reports that highlight weaknesses and opportunities with strategic recommendations.
- Manage challenges and conflicts within audit teams effectively to enhance performance.
- Support strategic decision-making through internal audit results.

### Course Modules

#### Day One: Strategic Leadership in Internal Audit

- The role of internal audit in supporting the organization's strategic objectives
- Advanced leadership skills for the internal audit leader
- Building a high-performance, impactful audit team culture
- Stakeholder management strategies and effective communication
- Reviewing international standards and recent updates IIA Standards

#### Day Two: Internal Audit Planning Using Advanced Risk Analysis Methodologies

- Applying qualitative and quantitative risk analysis methodologies
- Developing a risk-based strategic audit plan
- Using modern software and technologies in planning and data collection
- Managing and allocating resources according to strategic priorities

#### Day Three: Audit Execution and Supervision Techniques

- Using digital analysis tools and software to collect evidence
- Managing audit teams: motivation, performance tracking, and conflict resolution
- Reviewing complex audit operations and gap analysis
- Practical applications on auditing systems and processes

## Day Four: Preparing Advanced Reports and Strategic Recommendations

- Drafting internal audit reports with a strategic dimension
- Presenting results persuasively to support decision-making
- Techniques for handling objections and guiding dialogue with management
- Following up on recommendations and measuring impact through performance indicators

## Day Five: Leadership Challenges and Applications in Modern Internal Audit

- Managing change in audit teams and adapting to institutional changes
- Dealing with governance and regulatory compliance challenges
- Workshop: Advanced case study on leading a successful internal audit
- Performance evaluation and developing a personal action plan for the internal audit leader

## Why Should You Attend This Course? Gains and Losses!

- To enhance your leadership and technical skills in an advanced internal audit environment.
- To develop risk analysis capabilities and benefit from modern technical tools.
- To refine your report writing and strategically impactful recommendation skills.
- To learn how to manage a high-performance internal audit team amid challenges.
- To contribute effectively to supporting governance and transparency in your organization professionally.

## Conclusion

This training course represents a strategic step for anyone seeking professional and leadership excellence in the field of internal audit. In a fast-changing world full of organizational and technical challenges, internal audit is no longer just a control function, but rather an effective tool for leading institutional transformation, ensuring compliance, and supporting top-level decision-making.

This course has been designed to provide participants with an integrated mix of deep theoretical knowledge and advanced practical applications. The modules were carefully crafted to cover all essential aspects of efficiently leading audit teams—from strategic planning based on risk analysis, to executing audit operations using the latest tools and technologies, and finally to preparing impactful reports, crafting actionable recommendations, and facing the daily challenges encountered by leaders in this field.

Through engaging with the course content and practical activities, each participant will be able to develop a personalized action plan that can be immediately implemented in their workplace, enhancing their institution's ability to achieve transparency, improve control efficiency, and generate real added value from internal audit activities.
