Oil and Gas Business Management

Code: OG32 From: 8 - 12 November 2026 City: Cairo (Egypt) Fees: 4900 Pound

Introduction

Oil and gas business management is a cornerstone of efficiency, sustainability, and growth in one of the world's most dynamic industries. It integrates strategic planning, financial management, risk control, contract negotiation, and supply chain optimization to ensure organizational resilience and long-term success.

This comprehensive training program provides participants with practical knowledge and hands-on skills to manage operations effectively, tackle industry challenges, and develop strategies that align with corporate goals while minimizing operational and financial risks.

Course Objectives

By the end of this program, participants will be able to:

- Understand the fundamental principles of oil and gas business management.
- Analyze financial data to support strategic decisions.
- Develop risk management frameworks for volatile environments.
- Apply best practices in contract and supply chain management.
- Enhance negotiation skills to achieve favorable outcomes.
- Utilize analytical tools to improve innovation and efficiency.
- Design operational plans with governance and sustainability in mind.
- Strengthen leadership and team-building capabilities.
