## Financial Analysis of Liabilities, Investments, and Risk Management

Code: FA32 From: 24 - 28 August 2026 City: Vienna (Austria) Fees: 5200 Pound

### Introduction

In today's dynamic business environment, mastering financial analysis is essential for professionals involved in managing investment strategies, regulatory obligations, and risk frameworks. Understanding what financial analysis is and how to apply financial analysis techniques allows organizations to make informed financial decisions, ensuring long-term stability and growth.

This financial analysis course is designed to provide participants with the essential skills required to assess financial obligations, analyze investment opportunities, and integrate risk management strategies into financial decision-making. By exploring different types of financial analysis, participants will gain insights into how to optimize financial planning and enhance overall organizational performance.

### Course Objectives

By the end of this financial analysis training, participants will:

- Master financial analysis techniques to assess corporate liabilities and investments.
- Develop a comprehensive understanding of financial analysis and planning in organizational strategy.
- Gain expertise in applying modern risk management strategies to safeguard investments and assets.
- Learn how to do financial analysis effectively to evaluate investment opportunities.
- Strengthen decision-making abilities in financial analysis services and business and financial analysis.
- Acquire the ability to integrate financial analysis skills into investment planning and risk mitigation.

### Course Outlines

#### Day 1: Advanced Financial Analysis of Liabilities and Investments

- Definition of financial analysis and its role in corporate finance.
- Understanding financial analysis meaning and its impact on strategic planning.
- Evaluating corporate liabilities: types, structures, and implications.
- Apply financial analysis techniques such as Net Present Value NPV and Internal Rate of Return IRR.
