Advanced Preparation for Project Management Professional (PMP) Certification

Ref: 3255174_190394 **Date:** 22 – 26 February 2027 **Location:** Malaga (Spain) **Fees:** 5900 GBP

Introduction

Achieving the Project Management Professional PMP certification is a significant milestone for professionals aiming to excel in project management. This intensive 1-week PMP Exam Preparation course is designed to provide participants with the knowledge, strategies, and confidence required to pass the PMP exam.

The course combines theory and practice, offering insights into the five process groups and the ten knowledge areas defined in the PMBOK® Guide. Participants will benefit from exam simulations, real-world examples, and proven techniques delivered by certified instructors. Successful completion grants 35 PDUs, fulfilling the eligibility requirement for the PMP exam.

Course Objectives

By the end of this course, participants will be able to:

- Understand PMP exam requirements and application procedures.
- Explain key project management concepts and relationships between portfolios, programs, and projects.
- Analyze how processes and activities integrate across the project lifecycle.
- Apply techniques for managing scope, schedule, cost, and quality.
- Develop comprehensive approaches to risk, communications, procurement, and stakeholder management.
- Strengthen leadership and team management skills for effective project execution.
- Prepare for the PMP exam using practice questions, simulations, and refined test-taking strategies.

Course Outlines
