## Sustainability and Social Responsibility in Mining

Code: OG28 From: 5 - 9 April 2026 City: Amman (Jordan) Fees: 4000 Pound

### Introduction

Sustainability and social responsibility have become fundamental pillars of the modern mining industry. Success is no longer measured solely by profitability, but also by a company's commitment to environmental and social standards.

This course is designed to provide participants with a comprehensive understanding of how to integrate sustainability into mining strategies and how to proactively address environmental and community-related issues. The program emphasizes building corporate reputation, ensuring long-term business continuity, and aligning mining operations with global sustainability frameworks.

### Course Objectives

By the end of this course, participants will be able to:

- Understand the concept of sustainability and its dimensions in the mining sector.
- Identify global best practices in Corporate Social Responsibility CSR.
- Assess the environmental and social impact of mining projects.
- Develop practical strategies to strengthen relationships with local communities.
- Balance sustainability requirements with economic objectives.
- Apply global frameworks and standards such as ESG and GRI in mining reports.

### Course Outlines

#### Day One: Introduction to Sustainability in Mining

- Defining sustainability and its economic, social, and environmental dimensions.
- The importance of integrating sustainability into mining strategies.
- Legal and regulatory frameworks influencing sustainability.

#### Day Two: Corporate Social Responsibility CSR in Mining

- The concept of CSR and its relevance to the mining industry.
- Building strong relationships with local communities.
- Case studies on successful CSR initiatives.

#### Day Three: Environmental Impact of Mining

- Analyzing the environmental effects of mining operations.
- Strategies to reduce emissions and waste.
- Applying circular economy principles in mining.

## Day Four: Global Sustainability Standards and Reporting

- Introduction to ESG and GRI standards in the mining sector.
- How to prepare effective sustainability reports.
- Practical examples from international mining companies.

## Day Five: Advanced Sustainability Strategies

- Integrating the UN Sustainable Development Goals SDGs into mining strategies.
- Designing long-term sustainability programs.
- Capstone project: Developing a sustainability plan for a simulated mining company.

## Why Attend This Course: Wins & Losses!

- Future-Oriented Perspective: Gain insights into the latest sustainability and CSR trends in mining.
- Added Value: Learn how to enhance corporate reputation and achieve a competitive edge.
- Practical Tools: Acquire skills to prepare ESG and CSR reports effectively.
- Positive Impact: Contribute to balancing economic growth with environmental and social responsibility.

## Conclusion

This course positions participants to strike a strategic balance between profitability and sustainability in the mining industry. With the knowledge and tools acquired, participants will be prepared to lead impactful initiatives that contribute to building a more responsible and sustainable mining sector.
