Efficient Finance & Accounting Operations

Ref: 3255224_191383 **Date:** 16 – 20 August 2027 **Location:** Amsterdam (Netherlands) **Fees:** 5200 GBP

Introduction

In today's fast-paced and competitive environment, Efficient Finance & Accounting Operations are the backbone of organizational success. The challenge goes far beyond compliance or reporting—it lies in achieving Financial Accuracy, maintaining Operational Excellence, and ensuring strategic alignment with business objectives.

This intensive program offers a complete framework to strengthen finance and accounting operations. Covering topics from raising and investing funds, preparing Financial Reporting, and managing Working Capital, to mastering Budgeting and Costing, the course equips participants with the practical tools and analytical insights to improve Profitability, enhance Liquidity, and strengthen Risk Management across all functions.

Course Objectives

By the end of this course, participants will be able to:

- Recommend efficient financing methods to support organizational growth.
- Evaluate investment opportunities using Payback, Net Present Value NPV, Internal Rate of Return IRR, and Modified IRR.
- Prepare accurate and timely financial statements to ensure Financial Accuracy.
- Manage short-term liquidity and optimize Working Capital effectively.
- Develop, implement, and control Budgeting systems for strategic decision-making.
- Apply Best Practices in financial analysis to guide long-term planning.
- Strengthen reporting and communication skills for effective Financial Reporting.
- Identify and mitigate financial risks using structured Risk Management frameworks.
