Internal Auditing of Labour Support Funds and Programs

Code: QM32 From: 18 - 22 January 2027 City: Malaga (Spain) Fees: 5200 Pound

Introduction

Effective internal auditing plays a critical role in safeguarding Labour Support Funds and labour support programs, ensuring good governance, transparency, accountability, and efficient use of public funds. As funding mechanisms become more complex and public scrutiny increases, internal audit functions must evolve beyond compliance to deliver risk-based assurance and performance insight.

This course is designed to strengthen participants' professional capabilities in conducting high-quality internal audits within Labour Support Funds and related programs. It integrates International Internal Auditing Standards IIA with practical, real-world applications tailored to public and semi-public labour support systems.

The program focuses on governance, risk management, internal control systems, regulatory compliance, and performance auditing, equipping participants with the tools and methodologies required to enhance oversight, prevent misuse of funds, and support continuous improvement.

Course Objectives

By the end of this course, participants will be able to:

- Understand the role and responsibilities of internal audit in Labour Support Funds and labour support programs.
- Apply international internal auditing standards and best practices in public and semi-public entities.
- Identify, analyze, and assess risks related to labor support funding and programs.
- Evaluate the effectiveness of internal control systems and regulatory compliance.
- Conduct financial, operational, compliance, and performance audits.
- Prepare professional internal audit reports with clear findings and recommendations.
- Design and monitor audit follow-up and corrective action plans.
- Strengthen governance, accountability, and transparency in the management of public funds.
