Advanced Team Management and Supervising

Ref: 3255619_206153 **Date:** 7 – 18 June 2027 **Location:** Malé (Maldives) **Fees:** 10600 GBP

Introduction

Effective team management and supervising are critical skills for leaders in today's dynamic workplace. Organizations in the Middle East and North Africa face challenges in aligning team performance with strategic goals.

Managers and team leaders must balance operational efficiency, employee engagement, and organizational objectives simultaneously. This intensive 2-week program provides practical frameworks, tools, and strategies to enhance leadership, communication, and supervisory skills.

Participants will learn how to motivate teams, resolve conflicts, improve productivity, and implement effective management practices. The course is designed for executives, team leaders, HR professionals, and department managers across various sectors including oil and gas, banking, telecommunications, government, marketing, and project management. Attendees gain actionable knowledge to lead teams confidently, drive performance, and foster a collaborative workplace culture.

Course Objectives

By the end of this course, participants will be able to:

- Understand advanced principles of team management and supervision.
- Apply effective leadership techniques to motivate and engage employees.
- Design clear roles, responsibilities, and accountability structures.
- Identify and resolve workplace conflicts using practical strategies.
- Enhance communication and collaboration within teams.
- Monitor performance metrics and provide constructive feedback.
- Implement tools and processes for productivity improvement.
- Develop decision-making and problem-solving skills in team contexts.
- Promote a positive workplace culture and employee satisfaction.
- Lead strategic initiatives and change management effectively.

Course Outlines

- Workshop: Strategic decision-making simulations.

Day 10: Continuous Improvement and Evaluation

- Techniques for evaluating team effectiveness.
- Implementing continuous improvement practices.
- Planning for long-term team development.
- Integrating feedback and lessons learned.
- Preparing a team performance improvement roadmap.
- Final activity: Presenting a comprehensive team management plan.

Why Attend This Course: Wins & Losses!

- Gain advanced skills in team management and supervision.
- Improve team performance and productivity.
- Enhance employee engagement and satisfaction.
- Develop practical conflict resolution and problem-solving techniques.
- Master delegation, coaching, and mentoring skills.
- Align team objectives with strategic organizational goals.
- Learn actionable strategies for managing change.
- Apply global best practices in team leadership.
- Understand limitations of conventional management approaches.
- Receive tools for long-term team development and success.

Conclusion

Advanced team management and supervising is essential for organizational success and operational excellence. This 2-week program equips participants with practical leadership tools, supervisory techniques, and strategic frameworks. Attendees learn to communicate effectively, resolve conflicts, motivate teams, and manage performance with measurable results. By the end of the course, participants are prepared to lead high-performing teams, implement innovative solutions, and drive sustainable growth.

The program transforms managerial skills into actionable leadership strategies that enhance employee satisfaction, boost productivity, and align teams with organizational objectives. Professionals completing this course are capable of turning team management challenges into opportunities for organizational success and long-term impact.
