Property Management Training Course

Code: 32 From: 15 - 19 March 2027 City: London (UK) Fees: 5400 Pound

Introduction

This practical and comprehensive training course is designed for professionals working in **property management, asset management, real estate development, leasing, operations, and maintenance**, who require practical skills to manage properties efficiently and improve their performance and value.

The course covers the key aspects of property management, with a focus on **planning and operations, tenant management, leases and contracts, maintenance, cost control, risk management, performance indicators, and improving property returns**.

The programme emphasises practical application of property management best practices to **improve operational efficiency, enhance tenant satisfaction, control costs, protect property value, and strengthen financial returns**.

Course Objectives

By the end of this course, participants will be able to:

- Understand the fundamental principles of property management.
- Understand the property lifecycle and its management stages.
- Develop effective property operation and management plans.
- Manage tenant relationships and improve tenant satisfaction.
- Understand and manage lease agreements, renewals, and expirations.
- Monitor leasing, occupancy, and rental collection activities.
- Manage preventive and corrective maintenance activities.
- Monitor and control operating and maintenance costs.
- Apply Key Performance Indicators KPIs to measure property performance.
- Manage suppliers and operations and maintenance service providers.
- Identify operational, legal, and financial risks associated with property management.
- Apply effective safety, security, and emergency management practices.
- Improve resource utilisation and operational efficiency.
- Support the preservation and enhancement of property value.
- Make practical decisions to improve the financial and operational performance of properties.

Why Attend This Course? - Gains & Losses!

Gains

- Develop practical property management skills.
- Improve operational and maintenance efficiency.
- Increase tenant satisfaction and retention.
- Improve lease and leasing management.
- Reduce vacant units and improve occupancy rates.
- Improve rental collection and arrears management.
- Control operating and maintenance costs.
- Strengthen supplier and contractor management.
- Improve risk, safety, and emergency management.
- Use performance indicators to support better decisions.
- Protect property value and enhance financial returns.

Potential Losses

Without effective property management practices, organisations may face:

- Higher operating and maintenance costs.
- Lower occupancy rates and increased vacancies.
- Delayed rental collection and increased arrears.
- Lower tenant satisfaction and higher tenant turnover.
- Recurring equipment failures and increased repair costs.
- Weak control over suppliers and contractors.
- Reduced property value due to inadequate maintenance and management.
- Increased operational and legal risks.
- Poor financial performance and lower property returns.
- Losses resulting from ineffective operational and management decisions.

Conclusion

Over five days, this course provides a comprehensive and practical understanding of **property management, operations and maintenance, tenant management, leasing and contracts, cost control, and financial performance**.

The programme is designed with a strong focus on practical application of property management best practices, including **leasing, occupancy management, rental collection, maintenance, supplier management, risk management, and performance measurement**.

Participants will be equipped to manage properties more effectively while balancing **service quality, operational efficiency, tenant satisfaction, cost control, property value**
