Preparation for Project Management Professional (PMP) Certification

Ref: 321413_293603 **Date:** 11 – 22 January 2027 **Location:** Malé (Maldives) **Fees:** 9700 GBP

Introduction

Achieving the Project Management Professional PMP certification is a pivotal step for professionals aspiring to advance in the field of project management. This PMP Exam Preparation course is meticulously designed to equip participants with the knowledge and strategies needed to succeed in the challenging PMP exam. By exploring the exam's requirements and format, participants will gain confidence in answering its questions.

This course offers a deep dive into the five process groups and ten knowledge areas outlined in the PMBOK® Guide. With the guidance of a certified instructor, participants will benefit from practical tips, test simulations, and access to essential resources. Successful completion of the course awards 35 PDUs, a critical requirement for PMP exam eligibility.

Course Objectives

By the end of this PMP certification preparation course, participants will be able to:

- Understand the PMP exam requirements and application process.
- Explain key project management concepts and their relationships, such as portfolios, programs, and projects.
- Analyze the integration of processes and activities within the PMP exam framework.
- Master techniques for scope, cost, and schedule management.
- Develop a comprehensive risk management plan and evaluate potential project risks.
- Prepare for the PMP exam by practicing test questions and refining exam strategies.
- Effectively manage stakeholder expectations and communications throughout the project lifecycle.

Course Outlines
